

TOWN OF DANVILLE

STREET DEPARTMENT

2025 Year end report for the Town of Danville Street Department

Paved 8 roads with help of CCMG

Applied Liquid Road on 2 streets

Used 100 tons of Asphalt mix on pot hole repairs and street cuts

Used 10 yards of Concrete for side walk replacements and repairs

Collected 80 yards of leaves picked up

Had 2 Employees acquire class B CDL

Replaced and repainted the Street Department building

Was able to finish the rebranding of Street Department from DPW to Street

I would like to personally thank the Street Department staff for all of the hard work that went into 2025 from fixing streets, storm damage, concrete work, special events, snow plowing and salting events in winter. Most people don't realize in this line of work how many times you get called out in middle of night or while you are in the middle of dinner or a event with your family, and the staff always just puts those things on pause and shows up to make the town safe for it's residents and for that I thank them all, we have a great team here.

Thank you

Dave Newell

Street Department

Superintendent
